EDUCATION

Georgia Institute of Technology – College of Computing

Atlanta, GA

Bachelor of Science in Computer Science, GPA: 4.00/4.00

Expected: Dec 2028

- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Computer Organization & Programming, Objects & Design

EXPERIENCE

Senior iOS Developer / Tech Lead

Jan. 2026 – Present

Georgia Tech iOS Club

Atlanta, GA

- Delivered **SideQuest** to **100+ testers** by shipping **6+ SwiftUI + Firebase features** spanning quests, feeds, profiles, uploads, reactions, and persistent user flows
- Selected to lead a **20-member iOS team** for Fall 2026, overseeing architecture, sprint planning, code reviews, Git workflows, and end-to-end feature delivery

Teaching Assistant

Jan. 2026 – Present

Georgia Institute of Technology

Atlanta, GA

- Supported **300+ students** in Java and Object-Oriented Programming by leading recitations and office hours on generics, inheritance, polymorphism, file I/O, exceptions, and debugging
- Resolved **50+ unique Java implementation errors weekly** by debugging student code and tracing failures across inheritance, generics, file I/O, and object-oriented design

AI Research Intern

May 2026 – Aug 2026

Mohammed Bin Zayed University of Artificial Intelligence (MBZUAI) & GenBio AI

Hybrid, Atlanta, GA

- Outperformed baseline agents by **9% across 76 BioXArena tasks** by creating a **4-agent Python ML workflow** with Claude and OpenClaw for iterative experimentation
- Raised task performance by up to **30%** through a **3-round evaluation pipeline** combining cross-validation, feature engineering, leakage detection, and automated debugging
- Enabled cross-task ML strategy retrieval through a **3,662-dimensional TF-IDF system** that ranked task similarity and surfaced prior approaches for new biomedical datasets

Data Analytics Intern

June 2025 – July 2025

Emkay Global Financial Services Ltd

Mumbai, India

- Improved **delta correlation accuracy by 30% across 4+ equity markets** by processing Bloomberg derivatives data with **Python, pandas, and NumPy**
- Enabled real-time derivatives analysis by applying **statistical and time-series techniques** to Bloomberg data for pricing, volatility, and cross-market relationships

Machine Learning Intern

July 2024 – Aug. 2024

Reliance Jio

Remote

- Raised **Text-to-SQL translation accuracy by 8%** through LLM fine-tuning with **Hugging Face Transformers and LangChain**, improving structured-data retrieval from complex databases
- Cut query-generation time by **50%** and improved downstream retrieval accuracy by **60%** by integrating **LangChain, Ollama, SQL, and Python** into an end-to-end NLP pipeline

AI & NLP Intern

June 2023 – July 2023

National University of Singapore

Singapore

- Expanded churn-model experimentation across **6+ ML approaches**, comparing ANN, CNN, RNN, regression, clustering, and decision-tree methods for telecommunications datasets
- Extended churn forecasting horizons to **1.5 years** while deploying NLP and computer-vision applications with **AWS Amazon Lex and Rekognition**

PROJECTS

FlashFind | *React, TypeScript, Python, FastAPI, MongoDB, scikit-learn, Gemini*

- Enabled real-time campus buyer-seller matching by creating a **React/TypeScript + FastAPI platform** that converted natural-language requests into structured JSON with Gemini and stored listings in MongoDB
- Supported low-latency seller-match prediction by training a **Random Forest classifier on 400+ synthetically generated labeled examples** with scikit-learn and pandas

LEADERSHIP & INVOLVEMENT

Chess | *Dubai, UAE · Amritsar, India · Hyderabad, India · Atlanta, GA*

Apr. 2020 – Present

- Represented the **UAE Chess Team twice** at the CISCE National Games
- Reached the **top 0.01%** of players on Chess.com across multiple time controls, achieving a **2000 Elo rating**

Publications | *Dubai, UAE*

Sept. 2024

- Published Securing Machine Learning: Understanding Adversarial Attacks and Bias Mitigation, analyzing adversarial vulnerabilities and bias in machine-learning systems

SKILLS & CERTIFICATIONS

Languages: Python, Java, C++, TypeScript, JavaScript, SQL, Swift

Frameworks & Libraries: React, Next.js, Node.js, FastAPI, Flask, SwiftUI, PyTorch, scikit-learn, LangChain, Hugging Face

Tools & Data: Git, GitHub, Firebase, MongoDB, SQLite, Prisma, pandas, NumPy, OpenCV, Ollama

Concepts: Data Structures & Algorithms, OOP, REST APIs, Backend Development, Databases, Debugging, ML Pipelines, Model Evaluation, Feature Engineering, Cross-Validation, Agentic AI, NLP, Computer Vision

Certifications: CS50P: Python (Harvard) | CS50AI: Artificial Intelligence (Harvard) | Advanced MCP (Anthropic)
